17 Kenilworth Street Leamington Spa Warwickshire CV32 4QS

Personel Details

I have been fortunate enough to put my creative skills to the test with a variety of art and design related positions and placements. I enjoy working with a mixture of people and work at my best within a small or middle-sized team. I have very good artistic skills and a good handling of the Adobe Creative Suite. The years I spent as a website designer for the Council of Disabled People really challenged me with a variety of design jobs, both for web publication and for print.

Hobbies & Interests

Reading books and listening to music are my favourite pastimes when I'm not doing other artistic stuff. I enjoy most cultural pursuits, classical, modern and contemporary. Travelling is a great pleasure and I wish I could do more of it. Visiting Galleries and Museums is enjoyable and I like walking around cities and the countryside. I love camping, campfires and magic. I'm interested in philosophy and religion and consequently: social justice and fair play. I believe that everyone can learn and heal through creative growth.
